**RE: NL Industries/Taracorp Superfund Site; Granite City, Illinois
Discharge of Groundwater from Monitoring Wells to Sanitary Sewer System**

Dear Mr. Bradley:

Attached for your information is a copy of the City of Granite City Regional Wastewater Treatment Plant's June 5, 2000 letter which authorizes the discharge of groundwater collected from monitoring wells at the NL/Taracorp site into the sanitary sewer system.

Very truly yours,

LEED ENVIRONMENTAL, INC.

Dear Mr. Tokarski,

This letter is in response to your request to discharge 3,000 gallons of groundwater collected from monitoring wells for Metalico, Inc. in Granite City.

Review of analytical results indicates that the indicated groundwater falls within the limits of the City's sewer use ordinance. Based on these results, permission is granted to discharge this wastewater to the sanitary sewer in the manner described in your request.

Should you have any further questions or comments, please feel free to contact me at (618) 452-6229.

Sincerely,

Ron Parente
General Foreman of Operations
